

Conference Day 1

Tuesday, 6 June 2023

People, Planet, Purpose for Africa

08h50	WELCOME Remarks from Deloitte Leadership and MC MC: Sthembiso Phakathi , Director Human Capital: Organisational Transformation, Deloitte
09h00	GLOBAL INSIGHT KEYNOTE Global Industrial Competitiveness of SA South African companies compete on a global stage, whether to attain global market growth or to defend against highly competitive imports. In this talk we briefly frame the global context in terms of ESG, and then make it practical by exploring scenarios of how this is and will affect South Africa's competitiveness in the next decade. Hannah Marais , Head Economic Unit, Deloitte
09h30	INNOVATION KEYNOTE An Unprecedented Age of Industrial Innovation The art of the possible, what technologies and companies will shape a world moving toward Net Zero. What a period of unprecedented industrial innovation means for Africa. Gareth Rees , Head Sustainability Strategy, Deloitte
10h00	JUST TRANSITION KEYNOTE End of Load Shedding in South Africa Moonshot The current just transition plan deals largely with the generation problem, but as we transition to renewables en masse we will encounter significant complexity as the South African grid has not been designed for these variable distributed loads. A panel of global experts lead by Dr Adriaan Davidse has proposed a novel mechanism that could end load shedding in its current form using distributed intelligence on the demand side. This thought provoking talk shows what is possible if stakeholders have the collective will to solve the energy crisis. Dr. Adriaan Davidse , Head Energy Transition, Deloitte
10h30	MID-MORNING BREAK
11h00	INTERNATIONAL VIRTUAL KEYNOTE Demand Better "Demand Better", which is a market mechanism for end-use-service-driven industries to subsidise the market price of green hydrogen, green steel, green cement and other high volume / high carbon technologies so that these projects can be feasible today instead of waiting for these technologies to ride their cost curve driven by regulation, policy or innovation. Michael Raynor , MD, Deloitte Consulting USA
12h00	IMPACT INNOVATION KEYNOTE Getting the Most out of Impact and Social Development Funding Too often social development and impact funding is earmarked for projects with low strategic importance with a very limited expectation of performance. We have defined a model we call impact innovation that drives sustainable investments to create thriving communities by leveraging technology. Philani Sangweni , Head Impact Innovation, Deloitte
12h30	LUNCH

Conference Day 2

Wednesday, 7 June 2023

People, Planet, Purpose for Procurement and Supply Chain

08h50	WELCOME Remarks from Master of Ceremonies Liesl De Wet , Head Accelerated Organisational Sustainability, Unitrans
09h00	OPENING KEYNOTE A Crisis is a Terrible Thing to Waste <p>The pandemic has taught us many things from the frailty of human life to the frailty of our environment and our systems. What role can ESG, sustainability and resource efficiency play in our current paradigm and how are they linked. Procurement has a critical role to play in establishing boundaries and effective systems all while considering resource scarcity and insecurity. What are the short, medium and long term goals that make us more resilient and ensure we thrive?</p> Dr Jaisheila Rajput , Founder & CEO, TOMA-Now Tomorrow Matters Now
09h30	KEYNOTE Transforming Procurement & Supply Chains for ESG – Where Should We Start? <p>How do leaders navigate this VUCA (volatile, uncertain, complex, ambiguous) world and embed the changes required within our procurement functions and supply chains? Leading research by the Novartis Professor of Leadership and Management at Harvard Business School, Amy C. Edmondson, shows that by embracing psychological safety leaders can create a mindset of openness, flexibility, creativity, and innovation without fear of criticism, failure, or taking risks. This Keynote will provide insights into how leaders can bring their teams with them on the journey to achieve Net Zero targets, and ESG goals and objectives.</p> Desre Hancocks , Manager, Sustainable Value Chains, UK
10h00	VIRTUAL PRESENTATION Escaping the Reactive Compliance Trap <p>Gaining visibility into ESG Risk and Opportunity – from insights to action and impact in the value chain.</p> <p>While supplier risk management is not new, today's challenge requires a new response. The confluence of conditions including the pandemic, geopolitical and social upheaval, a resurgence in modern slavery, financial uncertainty, and the urgency of the climate crisis make old "Silo'ed" compliance-oriented approaches unmanageable, and the outputs ineffective. It demands a holistic and proactive approach, where the best defense is a performance-based offense, and which can serve as a foundation for upside and positive impact.</p> Lazar Armianov , Regional Director, EcoVadis
10h20	MID-MORNING BREAK

Conference Day 2

(continues)

Wednesday, 7 June 2023

11h05	<p>VIRTUAL INTERNATIONAL PRESENTATION Adopting and Measuring Circular Packaging in Your Supply Chain: The Opportunity for Avoided and/or Captured Co2 Emissions</p> <p>The Circular Economy is considered to be a key pillar of climate change policy by businesses and governments around the world. This session explores how rethinking packaging can provide businesses with an opportunity for Avoided and/or Captured Co2 emissions.</p> <p>Claire Rampen, Co-Founder, Reath</p>
11h30	<p>PRESENTATION The Past, Present and Future of Procurement in relation to ESG</p> <p>This talk showcases how local & international Environmental & Social legislation is enabling Procurement to evolve from being a compliance driven function to becoming a value creating function. What you can expect:</p> <ul style="list-style-type: none"> • Factors that have and are influencing procurements past, present & future approaches to environmental & social supply chain requirements • Multi-sector case studies • Critical steps every procurement function must take to position itself for the future <p>Trevor Naidoo, Supply Chain & ESG Strategist & Founding Director, ProcureSense, South Africa</p>
11h50	<p>PRESENTATION Green Public Procurement in Africa</p> <p>The significance of adopting GPP, What is the status of GPP in Africa, GPP International best practice, Building capacity for GPP implementation and Monitoring and the role Government in supporting GPP initiatives.</p> <p>Ernest Mutenda, Director, Blue Green Sustainability Services</p>
12h10	<p>PANEL DISCUSSION SMME Inclusion in Sustainable Procurement and Supply Chain - Taking a Look at the Only Way to Deliver Impact</p> <p>Small and medium-sized enterprises contribute to strong, inclusive local economies and will play a key role in Africa's economic development, generating employment and value-added and contributing to innovation. SMMEs are central to the efforts to achieve environmental sustainability and more inclusive growth. The question begs to be asked and answered: How do we empower small and medium enterprises to grow the African economy?</p> <p>Moderator: Molebogeng Matsebatlela, Supply Chain Head, Siemens</p> <p>Panelists:</p> <p>Litha Kutta, Enterprise and Supplier Development Executive, South Africa</p> <p>Sam Oppenheimer, Chief Executive Officer, Dooka</p> <p>Rita Nkuhlu, Executive Management Representative, Siemens</p>
13h10	<p>LUNCH</p>

Conference Day 2 (continues)

Wednesday, 7 June 2023

14h10	<p>PRESENTATION The Role of Waste Management and Extended Producer Responsibility in an African Context</p> <p>How we can transition to a circular economy, safeguard our supply chains and protect the environment.</p> <p>Linus Naik, Head of Sustainability, Don't Waste</p>
14h30	<p>CO-PRESENTATION Reserved for SPP</p>
14h50	<p>PANEL DISCUSSION Charting The Path Towards Justice, Equality, Diversity & Inclusion</p> <p>Women can play a pivotal part when rebuilding our economy but women continue to be marginalised from the political sphere because of gender stereotypes, lack of access and socio-economic-structural barriers. According to UN Women, more than 150 countries still have laws that discriminate against women. The stats are bleak.</p> <p>How can we advance women's economic inclusion by promoting gender responsive procurement? Do we have the will to do so? Do we believe we can? Do we have a vision – individually and collectively?</p> <p>Moderator:</p> <p>Liesl De Wet, Head Accelerated Organisational Sustainability, Unitrans</p> <p>Panelists:</p> <p>Desre Hancocks, Manager, Sustainable Value Chains, UK</p> <p>Susanna Kwon, Executive: ISM Procurement Operations Centre (POC), Massmart</p> <p>Noluvo Ngcwabe, Executive Consultant, Barloworld</p> <p>Dr Jaisheila Rajput, Founder & CEO, TOMA-Now Tomorrow Matters Now</p> <p>Linus Naik, Head of Sustainability, Don't Waste</p>
15h50	<p>CLOSING</p>

Workshop Day 3

Thursday, 8 June 2023

People, Planet, Purpose for Procurement and Supply Chain

08h30	REGISTRATION AND MORNING REFRESHMENTS
09h30	The Fundamental Principles of Climate, Ecocide, ESG and AI For Procurement and Supply Chain Managers To meet increasing stakeholder demands, managing Environmental, Social and Governance (ESG) responsibilities is at the core of Procurement and Supply Chain Management. Of critical importance is a thorough understanding of the fundamental principles of the climate crisis, biodiversity loss, sustainability, circularity, regeneration, net zero and ESG. Managers should be prepared to provide and demand ESG reports and learn how AI can facilitate their ESG journey and stay abreast of evolving opportunities, risks and challenges. Sustainability can no longer be a nice-to-have bolt on. It needs to be a part of a company's DNA and the very essence the industry for the benefit of future generations. Lorraine Jenks , Chief Executive Officer, Hotelstuff
10h30	COMFORT BREAK
11h00	Workshop Continues
12h00	END
